

TOP ARCHITECTS

We are excited to announce the 2024 *ML* List of Top Mountain Architects, compiled from recommendations we received from our readers, photographers, vendors and staff.

As the number of design professionals working in the Rocky Mountain West has grown, so has the number of firms on the list.

Keeping our readers in mind, we've organized the list to be user-friendly, with architects listed by state and town; some architects have more than one office location, and we have listed only their primary corporate location. Professionals featured in *Mountain Living* during the past two years receive a special highlight that mentions their most recent projects in the magazine as of January/February 2024. Architects who have been featured in the past two years but are located outside of *Mountain Living's* territory are grouped together at the end of the list.

Multiple shed roofs echo the mountain peaks and give this Mammoth Lakes, California, home its modern vibe with materials that can stand up to a sometimes harsh climate.
